Suite 204

About

The Maternal Infant Health Program (MIHP), in partnership with the Michigan Department of Health and Human Services (MDHHS), supports families through personalized home visits, promoting health and wellness during pregnancy and infancy. Our mission is to ensure healthy pregnancies, positive birth outcomes, and healthy infant development. We envision a future where all babies, families, and communities in Michigan thrive.

MIHP works to reduce maternal and infant morbidity and mortality while fostering equity, integrity, quality, innovation, and collaboration.

Committed to diversity, equity, and inclusion, we continuously evaluate our approach to ensure that we honor all families and work toward health equity and justice for all.
